

## VERDUZZO TREVIGIANO

Cultivated in the plains of eastern Veneto. It has a medium, cylindrical-pyramidal, winged, semi-compact cluster a medium, ovoid, yellowish berry with sometimes greenish reflections, thin skin and juicy, simple tasting pulp. Vigorous and productive vine; it prefers deep and even clay soils, expanded systems of training and long pruning. It produces a wine of straw-yellow colour, slightly perfumed, dry taste, relatively alcoholic, with good, fixed acidity.

**Clones in propagation:** Verduzzo Trevigiano ISV-V5.

**Clones undergoing homologation procedure:** VCR465, VCR473, VCR474, VCR476.
